April, 28, 1986

RICHARD W. RILEY
Governor

J.P. STROM
Chief

J. LEON GASQUE
Captain

One of the most valuable tools in the campaign against crime is information. In its various forms, criminal histories, stolen property files and the like, law enforcement information has proved to be of great assistance to the criminal justice community in preventing or solving crimes and in identifying and apprehending offenders.

An important part of law enforcement information is the reporting of accurate and uniform crime statistics. These data are useful to law enforcement agencies in a number of ways, from long-range planning and budgeting to short-range operational activities. Crime in South Carolina, published annually, facilitates the uniform exchange of offense and arrest information between law enforcement agencies, local and state government agencies and the public. I offer here acknowledgement and thanks to those sheriffs, chiefs of police and other law enforcement personnel whose efforts continue to make possible the publication of this report.

Sincerely,

J P Strom

J. P. Strom, Chief
S. C. Law Enforcement Division

BACKGROUND OF UNIFORM CRIME REPORTING

NATIONAL UCR PROGRAM

Development of the current nationwide Uniform Crime Reporting (UCR) Program began over fifty years ago. In 1930, crime counts were first requested from local police departments with the Federal Bureau of Investigation (FBI) designated by Congress to collect,compile and analyze the statistics. The Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) played a primary role in the origin and development of UCR and today serves in a strong advisory capacity. Standardized offense classification and counting procedures developed by the IACP are the basis for the UCR program. The National Sheriffs' Association (NSA) also serves in an advisory role to the national program. The publication, Crime in the United States, is the annual report published by the FBI dealing with national crime statistics.

In recent years the FBI has actively assisted states in the development of state level UCR programs compatible with the national system.

SOUTH CAROLINA UCR PROGRAM

South Carolina was one of the first states to implement an operational state UCR program. The South Carolina Law Enforcement Division is the agency administering the program. The information collected and the uniform classification under which it is collected are based directly upon the guidelines developed by the IACP and FBI.

Upon initiation of the South Carolina UCR program in July, 1973, SLED, in conjunction with the FBI, held workshops around the state to instruct or refresh the county and city law enforcement agencies on the scope of the program and the mechanics of completing the forms.

Since that time, SLED, along with the local law enforcement agencies, has instituted an incident-based records management system which has greatly enhanced and improved the quality of information gathered under the Uniform Crime Reports system. Under this new procedure crime data and other information gathered by municipal and county law enforcement agencies are collected and submitted to SLED on a daily, monthly and annual basis. This new system lends itself to a more complete and accurate crime reporting system which, in most instances, alleviates some of the paperwork with which many departments have been burdened. An additional advantage of using standard incident and booking reports has been realized from the uniformity of documents. Standardized reports facilitate the exchange of information between law enforcement agencies within the state. The forms have been included in the report writing classes taught at the South Carolina Criminal Justice Academy.

OBJECTIVES

The fundamental objectives of the South Carolina Uniform Crime Reporting Program are:

(1) To inform the governor, legislature, other governmental officials and the public as to the nature of the crime problem in South Carolina.

(2) To proivde law enforcement administrators with criminal statistics for administrative and operational use.

(3) To determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.

(4) To provide base data and statistics to help measure the workload and effectiveness of the criminal justice system.

(5) To provide base data for research to improve the efficiency, effectiveness and performance of criminal justice agencies.

A particular important goal of the state UCR program is to return statistical information to the contributors. With implementation of the new incident reporting system, participating police agencies furnish data that are verified and then returned to each jurisdiction in the form of monthly printouts. Contributing agencies then possess detailed information showing crime trends within their jurisdictions. The information enables them to make decisions in budgeting, manpower allocations and the identification of high crime areas.

This information is also forwarded by SLED to the FBI on a monthly basis for inclusion in the FBI's annual UCR publication.

REPORTING AND CLASSIFICATION

In reporting offenses to the Uniform Crime Reports program, crimes are classified according to standard definitions (given in a later section of the report) that are used throughout the nation. The UCR definitions are designed to insure that offenses with different titles under the laws of the various states are appropriately classified and counted under the UCR program without regard to findings of courts or juries, since the statistics are gathered primarily to assist in identifying areas of concern to law enforcement officers, and not meant to reflect the outcomes of inquests, hearings or trials.

CRIME FACTORS

The presence of crime in our state's communities is a serious concern not only of the law enforcement profession but of society at large. Historically, the causes and origins of crime have been the subjects of investigations by many disciplines. However, no definitive conclusions have yet been reached. Instead, a number of factors affecting the volume and type of crime that occurs from place to place have been delineated. Some of these are as follows.

Density and size of community population and its surrounding area.
Variations in composition of the population, particularly age structure.
Stability of population with respect to transient factors.
Economic conditions, including job availability.
Cultural conditions, such as educational, recreational, and religious characteristics.
Climate.

Effective strength of law enforcement agencies.
Administrative and investigative emphasis of law enforcement.
Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional and probational).
Attitudes of citizenry toward crime.
Crime reporting practices of citizenry.

These and other crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Police cannot shoulder the entire burden of fighting crime. The same is true of the courts, correction agencies, and any other elements of the criminal justice system. Real progress against crime can be attained only when each individual recognizes that crime prevention is his personal responsibility and acts accordingly.

SOUTH CAROLINA CRIME INDEX

The tabulation presented in the tables, graphs, and charts in this publication indicate the volume, fluctuation, and distribution of crime in South Carolina on the basis of a crime index. The crime figures are categorized by agency, county and state on the basis of information submitted by police agencies from these areas. The seven offenses comprising the crime index are:

1. Murder
2. Rape
3. Robbery
4. Agg.Assault
5. Breaking or Entering
7. Motor Veh.Theft
6. Larceny

Definitions of these seven offenses can be found elsewhere in this book under their separate headings.

The crime index is used as a basic measure of crime. The crimes were selected for use as an index on the basis of their serious nature, their frequency of occurrence and the reliability of reporting from citizens to law enforcement agencies. The offenses of murder, rape, robbery and aggravated assault are categorized as violent crimes. Offenses of breaking or entering, larceny and motor vehicle theft are classed as nonviolent crimes. The crime index is the total of these offenses that come to the attention of law enforcment agencies.

In reviewing crime index figures, the reader should bear in mind that there is currently no way of determining the total number of crimes committed. The crime index has been established to measure only the instances of crime which come to the attention of law enforcement agencies. It is important to remember in reviewing the tables and graphs in this report that the volume of crime in a given area of municipality is related to the crime factors previously listed in this report.

CRIME RATES

The crime rate indicates the number of Index Crimes per unit of population, generally per 10,000. It should be noted that the rate only takes into consideration the numerical factor of population and does not incorporate any of the other elements which contribute to the amount of crime in a given

community. The effect of changes in population on rates should be kept in mind when attempting to make a comparison of crime rates.

The population data used in this report are supplied by the State Data Center, Division of Research and Statistical Services. The figures are based upon the latest projected population counts available from the State Data Center, July 1985.

PERCENT CHANGE

The percent changes in number of offenses and arrests from year to year are shown in a number of tables in the publication. The percent change shown after any 1983 figures reflect a comparison to information reported in 1982.

VIOLENT CRIME

Crimes of violence include murder, rape, robbery and aggravated assault. Violent crimes involve the element of personal confrontation between the victim and the offender and, because of their nature, are generally considered to be more serious than nonviolent crimes.

NONVIOLENT CRIME

For UCR purposes, nonviolent crimes include the offenses of breaking or entering, larceny, and motor vehicle theft. While these offenses generally do not involve personal danger to the victim,the value of property lost in these crimes is many times greater than in violent crimes.

ARSON

The offense of arson, defined for UCR purposes as any willful and malicious burning of any type of property, is included in this report. It has not been included in any trend data. Arson counts can be found in the section "Crime By County and Agency" as well as the "Arson" section.

The U.S. Congress passed legislation in October 1978 requiring the collection of arson as a Part I Crime in the uniform crime reports program. Consequently, during 1979, the South Carolina UCR program developed its own arson collection system. The year 1980 was the first full year South Carolina systematically collected, classified and counted arsons, regardless of whether they occurred in conjunction with other offenses. The reporting of arson data in South Carolina is enhanced by the cooperation of local fire service agencies.

PERCENT ROUNDING

Percentages shown in this publication may not add to 100 due to gross rounding (usually shown to the nearest tenth).

UPDATED DATA

Any data published here concerning figures for prior years supersede those in previous reports.

SOUTH CAROLINA
CRIME CLOCK
1985

one
CRIME INDEX OFFENSE
every 3 minutes

one
VIOLENT CRIME
every 25 minutes

- one **MURDER** every 28 hours, 38 minutes
- one **FORCIBLE RAPE** every 6 hours, 20 minutes
- one **ROBBERY** every 2 hours, 47 minutes
- one **AGGRAVATED ASSAULT** every 32 minutes

one
NONVIOLENT CRIME
every 4 minutes

- one **BREAKING OR ENTERING** every 13 minutes
- one **LARCENY** every 6 minutes
- one **MOTOR VEHICLE THEFT** every 1 hour, 1 minute

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather it represents the annual ratio of crime to fixed time intervals.

1983-1985 INDEX CRIME TRENDS

Offense	1983	% Change	1984	% Change	1985	% Change
Murder	321	- 7.8	305	- 5.0	306	+0.3
Rape	1,143	- 8.1	1,328	+16.2	1,383	+4.1

State Totals	15,204	15,602	13,506	14,028	13,858	13,317	85,515

CLEARANCE RATES

For crime reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender and there is enough evidence to charge him whether or not he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in clearing one crime. Clearances are recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender.

1983-85 CLEARANCE TRENDS

Offense	Year	Number Of Offenses	Total Cleared	% Cleared	No.Cleared* Under Age 18
Murder	1983	321	301	93.8	3
	1984	305	279	91.5	7

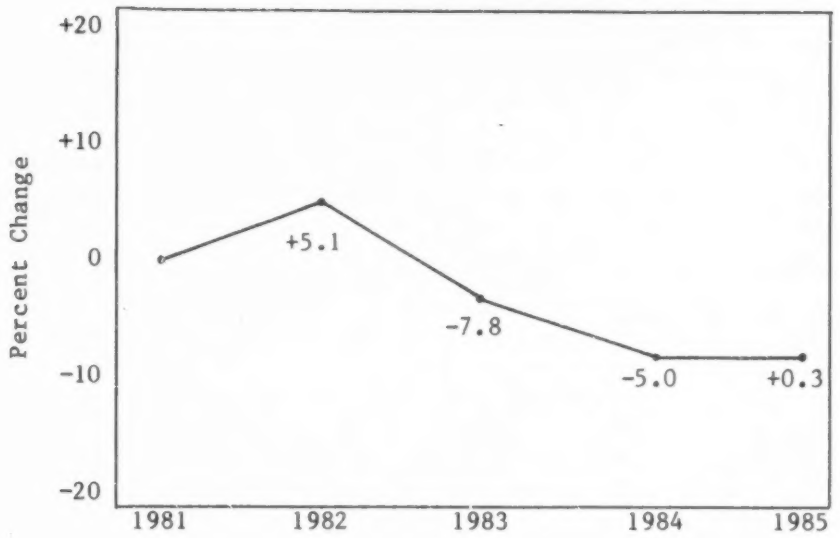
MURDER



Murder is defined as the willful (non-negligent) killing of one human being by another except those cases classified as justifiable homicides. Under the UCR definition, justifiable homicides are specifically limited to the killing of an offender by a police officer in the line of duty or the killing of a felon by a private citizen. This definition does not take into consideration the findings of coroners' juries or other courts. Suicides are not defined as murders under UCR. Attempts to commit murder are classified as aggravated assaults.

1985 SUMMARY

A total of 306 murders was reported in 1985. During this year, the number of murders increased 0.3 percent compared to those reported in 1984.

There were 288 murders cleared by arrest or exceptionally cleared, amounting to a clearance rate of 94.1 percent statewide.

Murders accounted for 1.4 percent of all violent crimes and 0.2 percent of the total crime index. The murder rate in South Carolina was 0.9 per 10,000 person.

The age group 30-34 accounted for 14.9 percent of persons arrested for murder. Males represented 82.7 percent of the total arrests made for murder.

Firearms were used in 62.7 percent of the murders, cutting instruments in 18.0 percent, hands and feet in 7.5 percent, and other weapons in 11.8 percent.

Victims in the age group 30-34 accounted for 14.5 percent of those killed. The most frequent victims were black males age 25-29. Relationships of murder victims to offenders within the family accounted for 27.8 percent, outside the family but known to the victim 49.7 percent,as strangers 12.7 percent and unknown relationships 9.8 percent. Over 61 percent of all murders occurred at residences.

1985 MURDER VICTIMS BY AGE, SEX, AND RACE

Age	Number	Percent Distribution	Male	Female	White	Black	Other
Infant	7	2.3	3	4	3	4	0
1-4	8	2.6	3	4	5	3	0
5-9	0	0.0	0	0	0	0	0
10-14	4	1.3	2	2	3	1	0
15-19	28	9.2	16	12	11	17	0

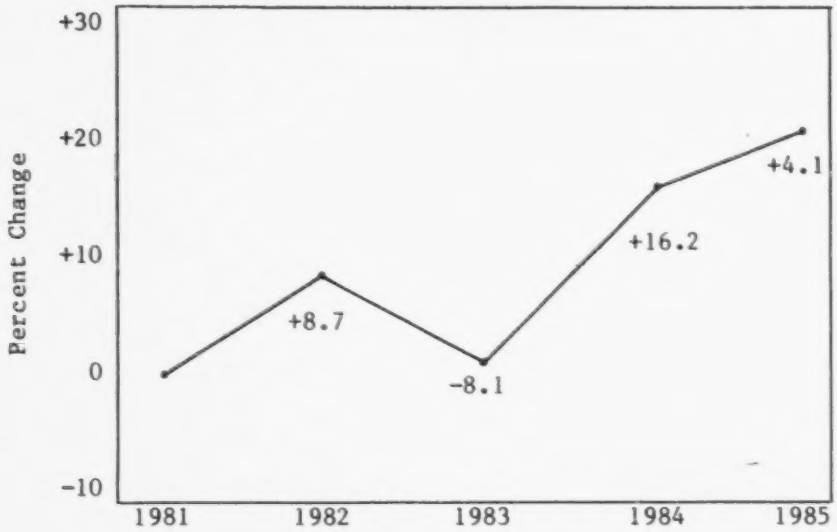
RAPE



Forcible Rape, by UCR definition,is the carnal knowledge of a female through the use or threat of force. Assaults to rape or attempts to commit rape are included in this category. One offense is counted for each victim of rape. Statutory rapes and other types of sexual assaults are not counted as rapes under the UCR prgram.

1985 SUMMARY

A total of 1,383 rapes was reported in 1985. During this year, rapes increased 4.1 percent compared to those reported in 1984.

There were 915 rapes cleared by arrest or exceptionally cleared, amounting to a clearance rate of 66.2 percent statewide.

Rapes accounted for 6.6 percent of all violent crime and 0.9 percent of the total crime index.

The number of rapes committed per 10,000 persons was 4.1 percent statewide. The rate per 10,000 females was 8.0 percent, based on a state female population of 1,725,000.

Of all persons arrested for rape, 45.9 percent were under the age of 25. With respect to race, 39.1 percent were white and 60.3 percent were black.

Dangerous weapons were used in 17.6 percent of all rapes.

Victims in the age group 15-19 accounted for 25.2 percent of persons raped. The relationships of victims to offenders within the family represented 15.7 percent of the total, outside the family but known to the victim 48.3, strangers 29.9 percent and unknown relationships 6.1 percent.

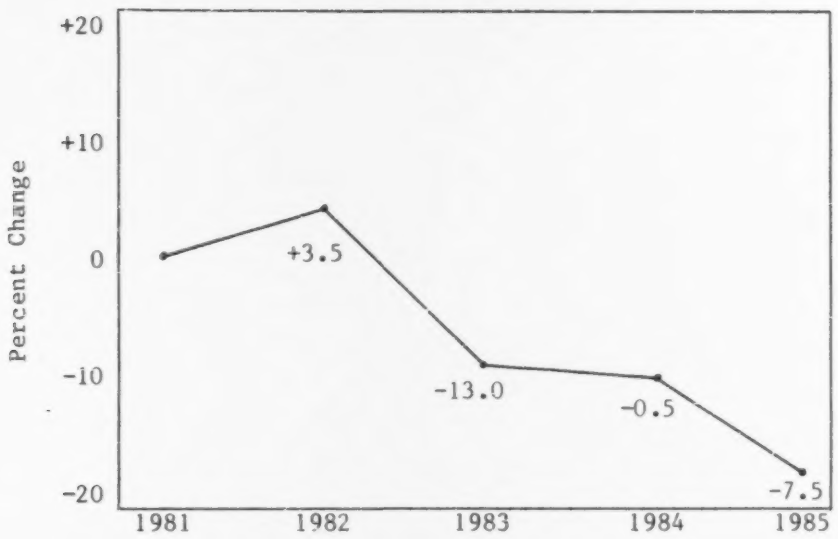
ROBBERY



Robbery, for UCR purposes, is defined as the unlawful taking of the property of another through the use or threat of force. Robbery is a violent crime in which the element of personal confrontation between the victim and offender is present. Attempts to rob are included in the robbery count. Armed robberies, those involving weapons, and strong-arm robberies, those not involving weapons, make up the two major categories. One robbery is counted for each distinct operation, regardless of the number of victims present at the time.

1985 SUMMARY

A total of 3,143 robberies was reported in 1985. During this year, robberies decreased 7.5 percent compared to those reported in 1984.

There were 1,209 robberies cleared by arrest or exceptionally cleared, amounting to a clearance rate of 38.5 percent.

Robberies accounted for 14.9 percent of all violent crimes and 1.9 percent of the total crime index.

The robbery rate in South Carolina was 9.3 per 10,000 persons.

The age group 25-29 accounted for 20.4 percent of persons arrested for robbery, followed by 10.0 percent for 30-34 years old. Males represented 94.3 percent of the total arrests made. Of all persons arrested for robbery, 26.0 percent were white, 73.8 percent were black, and 0.1 percent were other races.

Firearms were used in 31.5 percent of all robberies, cutting instruments in 14.2 percent, other weapons in 8.8 percent, hands and feet in 45.4 percent.

The greatest number of robberies reported for any premise type in 1985 occurred on streets and highways, accounting for 37.4 percent of the total.

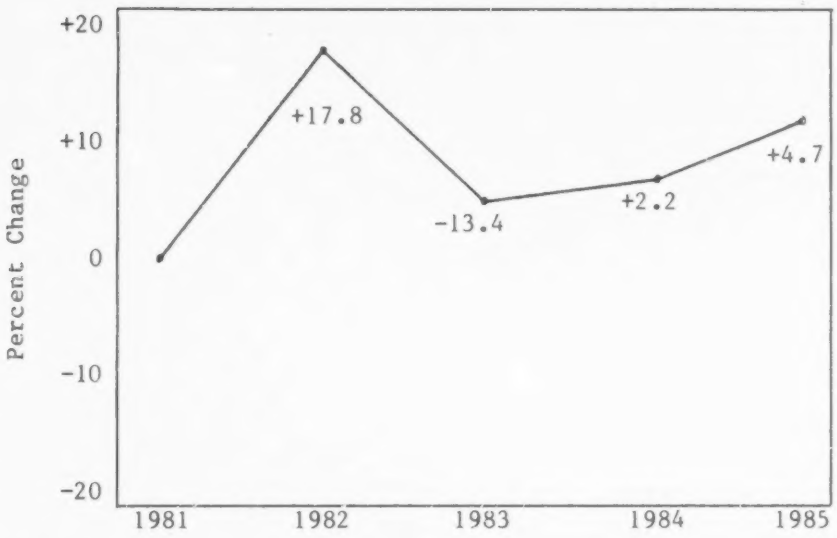
AGGRAVATED ASSAULT



Aggravated Assault, for UCR purposes, is defined as an unlawful attack by one person upon another with the intent of inflicting serious bodily injury. Aggravated Assaults are frequently accomplished through the use of or threatened use of dangerous weapons. However, assaults resulting in serious injury from the use of hands or feet are also counted in this category. Attempts to assault are counted here since it is not necessary that injury result whenever a dangerous weapon is employed. Attempts to commit murder are classified under this category. One offense is counted for each victim of aggravated assault.

1985 SUMMARY

A total of 16,274 aggravated assaults was reported in 1985. During this year, aggravated assaults increased 4.7 percent compared to those reported in 1984.

There were 11,424 aggravated assaults cleared by arrest or exceptionally cleared, amounting to a clearance rate of 70.2 percent statewide.

Aggravated assaults accounted for 77.1 percent of all violent crimes and 10.1 percent of the total crime index.

The aggravated assault rate in South Carolina was 48.3 per 10,000 persons.

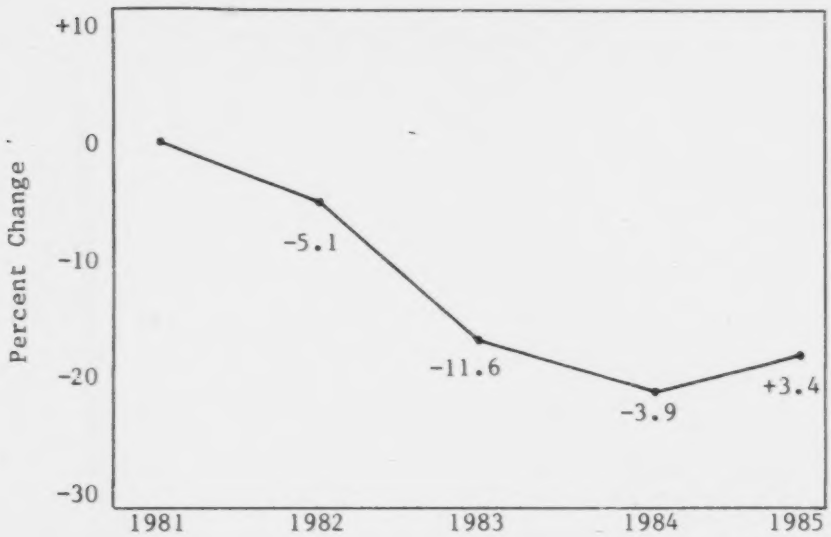
BREAKING OR ENTERING



Breaking or entering, for UCR purposes, is defined as the unlawful entry of a structure with intent to commit a felony or theft. It is not necessary that force be used in gaining entry in order for the offense to be classified as an unlawful entry. Neither is it necessary that property loss occur in an unlawful entry or forcible entry for the crime to be counted in this category. Attempts to unlawfully enter a structure are also counted. One offense is counted for each distinct operation.

1985 SUMMARY

A total of 41,925 breaking or entering offenses was reported in 1985. During this year, breaking or entering offenses increased 3.4 percent compared to those reported in 1984.

There were 7,269 breaking or entering offenses cleared by arrest or exceptionally cleared, amounting to a clearance rate of 17.3 percent.

Breaking or entering accounted for 29.8 percent of all nonviolent crimes and 25.9 percent of the total crime index.

The age group of 25-29 accounted for 15.2 percent of persons arrested for breaking or entering. Males represented 93.6 percent of the total arrests made. Of all persons arrested for this offense, 50.4 percent were white, 49.5 percent were black and 0.1 percent were of other races.

Of the three categories of breaking or entering, forcible entry accounted for 83.1 percent, unlawful entry 7.7 percent and attempted forible entry 9.2 percent.

Night operations accounted for 24.8 percent of breaking or entering offenses, daytime operations 41.3 percent and 33.9 percent occurred at unknown times.

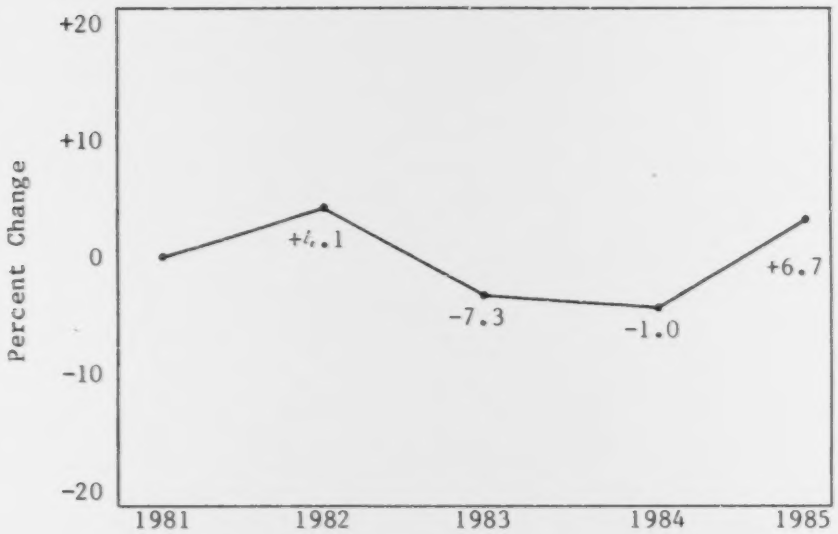
LARCENY



Larceny, for UCR purposes, is defined as the unlawful taking of the property of another without the use of force or fraud. Larceny does not have the element of unlawful entry. This offense category includes such crimes as shoplifting, purse-snatching, stealing items from vehicles and the like. Larceny does not include thefts by fraud,forgery,embezzlement or similar crimes. Motor vehicle thefts fall under a separate category and are not counted as larcenies. Attempts to commit larceny are included in this category. One offense is counted for each distinct operation, regardless of the number of victims.

1985 SUMMARY

A total of 90,103 larcenies was reported in 1985. During this year, larcenies increased 6.7 percent compared to those reported in 1984.

There were 19,716 larcenies cleared by arrest or exceptionally cleared, amounting to a clearance rate of 21.9 percent.

Larcenies accounted for 64.0 percent of all nonviolent crimes and 55.7 percent of the total crime index.

The larceny rate in South Carolina was 267.6 per 10,000 persons.

Persons under the age of 17 accounted for 20.5 percent of those arrested for all categories of larceny. Arrests of males accounted for 68.5 percent.

Thefts of motor vehicle parts, accessories, and contents accounted for 31.2 percent of the larceny category, while shoplifting made up 14.6 percent, thefts of bicycles made up 6.7 percent, and thefts from buildings 7.3 percent.

Individual offenses in which property stolen amounted to $200 or more accounted for 34.8 percent of all larcenies, those from $50 to $200 accounted for 26.6 percent and those less than $50 for 38.6 percent.

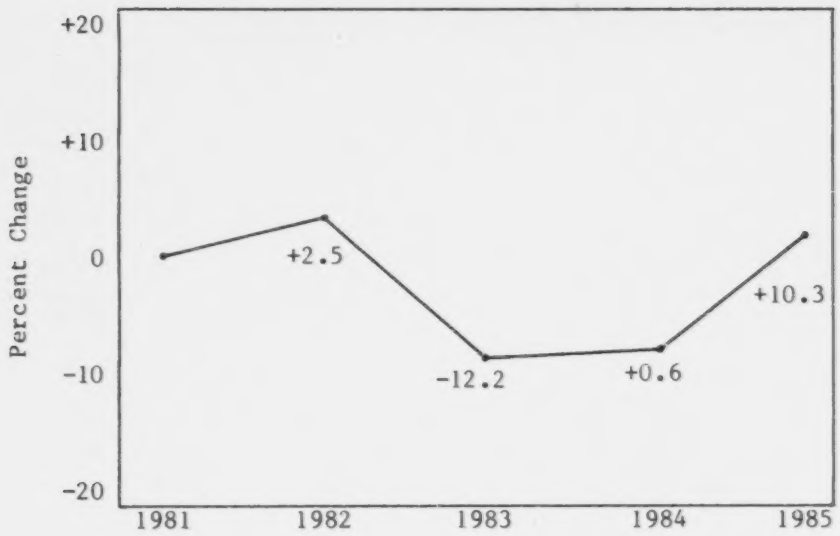
MOTOR VEHICLE THEFT



Motor Vehicle theft, for UCR purposes, is defined as the theft of a self-propelled vehicle that runs on the surface of the land but not on rails. Motor vehicles include automobiles, trucks, motorcycles and the like. This category does not include boats, airplanes or specialized items such as farm equipment, tractors, construction equipment, bulldozers etc. These specialized items are counted under the larceny category. Motor vehicle theft does not include using a vehicle without the owner's consent if prior consent or lawful access has been granted. Obtaining vehicles through fraud or failure to return rented vehicles are not included in this category. Attempts to steal motor vehicles as well as "joyrides" are counted as motor vehicle theft. One offense is counted for each vehicle stolen.

1985 SUMMARY

A total of 8,665 motor vehicle thefts was reported in 1985. During this year, motor vehicle thefts increased 10.3 percent compared to those reported in 1984.

There were 1,999 motor vehicle thefts cleared by arrest or exceptionally cleared, amounting to a clearance rate of 23.1 percent statewide.

Motor vehicle thefts accounted for 6.2 percent of all nonviolent crimes and 5.4 percent of the total crime index.

Of vehicles originally stolen in South Carolina, there were 4,754 recovered during 1985.

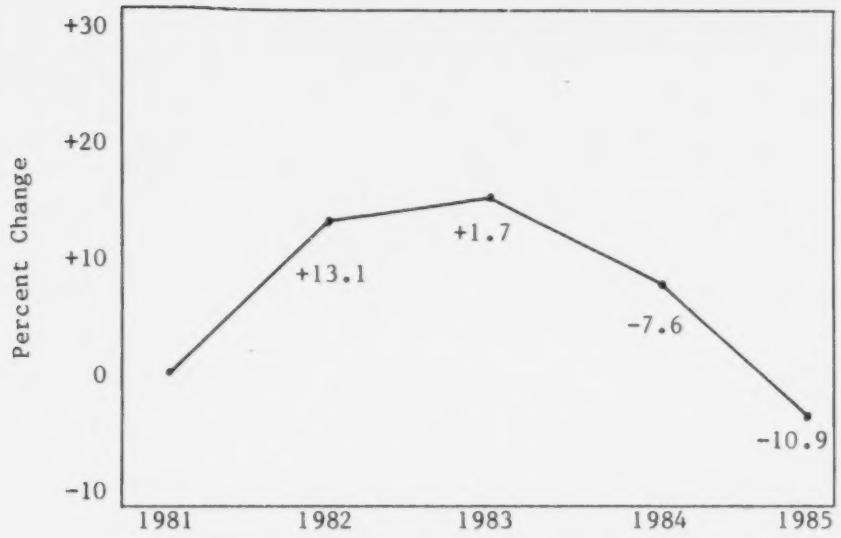
OFFICERS ASSAULTED



During 1985 there were 912 assaults upon law enforcement officers, a decrease of 10.9 percent from those reported during 1984. Of these, 38.2 percent occurred while the officers were responding to disturbance calls, 24.0 percent while the officers were attempting to make general arrests, 11.2 percent while making traffic stops and 8.8 percent while investigating suspicious persons. There were 897 police assaults cleared by arrest or exceptionally cleared, amounting to a clearance rate of 98.4 percent statewide.

Of the 912 officers assaulted, 3.7 percent were assaulted with firearms, 3.8 percent with cutting instruments, 7.0 percent with other weapons and 85.4 percent with hands, feet,etc.

Some degree of injury was sustained by 14.9 percent of officers assaulted; 74.3 percent of these injuries were caused by hands, feet, etc.

Of the 912 assaults on officers,50.8 percent occurred between the hours of 8:00PM and 2:00AM.

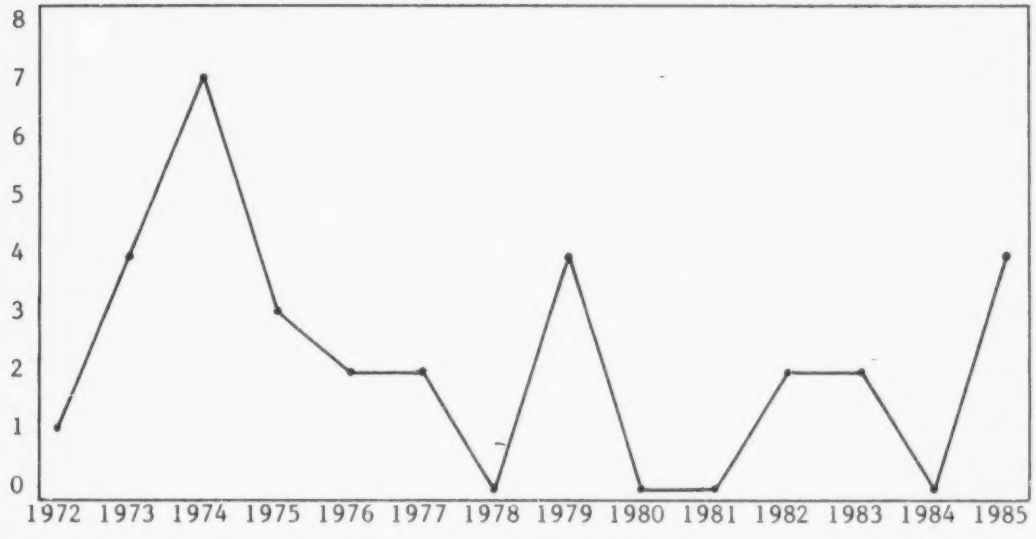
SOUTH CAROLINA LAW ENFORCEMENT OFFICERS KILLED BY YEAR



Three police officers were willfully killed in the line of duty in South Carolina during 1985.

A twenty-eight year old North Charleston police officer was killed on February 18, 1985, while responding to a silent alarm. He was shot at close range with a.38 caliber handgun. The officer had eight years of police experience.

A thirty year old South Carolina Highway Patrol troop stationed in Jasper County was killed on September 27, 1985, when he stopped a vehicle for a traffic violation. He was shot at close range with a .38 caliber handgun. The officer had nine years of police experience.

A forty-six year old state constable was killed on November 28, 1985, assisting a Greenville County deputy sheriff as they attempted to stop a vehicle fleeing an armed robbery. He was shot from about twenty feet with a 9 millimeter automatic weapon. He had five years experience.

ARRESTS

The Uniform Crime Reports Program requires a daily reporting of data concerning persons arrested in the state. Records of arrests for criminal acts in both Part I and II crime classes are received from state, county and municipal law enforcement agencies in South Carolina and are classified by offense category and arranged according to age,sex and race of persons arrested. Traffic arrests, except driving under the influence, are not reported. A total of 161,748 arrests for Part I and Part II crimes was reported during 1985, a 8.1 percent increase over 149,597 arrests reported for the year 1984.

A person is counted on the arrest report each time he is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to differences in local arrest procedures and policies. It should be noted that a person may be arrested several times during a given month for different offenses. This occurs frequently for such crimes as public drunk, disorderly conduct and similar violations. A juvenile is counted as "arrested" when the circumstances are such that, if he or she were an adult, an arrest would be counted, or when law enforcement or other official action is taken beyond a mere interview, warning or admonishment.

When reviewing arrest figures it should be remembered that arrest counts do not reflect the specific number of persons arrested since, as has been pointed out, one individual may be arrested several times during any given month or year. However, arrest data are useful in measuring the extent of law enforcement activity in a given geographical area as well as providing an index for measuring involvement in criminal acts by the age, sex and race of the offenders.

Analysis of reported arrests for the year 1985 indicates that 16.4 percent of arrests during the year were for Part I offenses (murder, manslaughter, forcible rape, robbery, aggravated assault, breaking or entering, larceny, motor vehicle theft, arson). Arrests for larceny comprised the highest percentage of Part I arrests, amounting to 54.6 percent, while arrests for drunkenness comprised 18.6 percent of Part II arrests. Persons arrested for alcohol and drug violations (drug laws, DUI, liquor laws, drunkenness) accounted for 42.8 percent of all arrests made during the calendar year 1985.

INDEX CRIME RATES & AGENCY TOTALS

County crime rate per 10,000 population and index crime counts by county and agency are shown in the two tables of this section. The crime rates in the first table are based upon the latest population counts available from the State Data Center, Division of Research and Statistical Services. County population projections are based upon a State population total of 3,367,000 for 1985.
